President ALAS since April 2019

Alliance for Sustainable Agriculture (ALAS), is a grouping of entities from the Spanish production sector that was created to express its support for all models of sustainably intensified productive agriculture.

ALAS is made up of the national and general Agrarian Professional Organizations ASAJA and UPA, Spanish Agrifood Cooperatives, the Spanish Federation of Export Producers of Fruits, Vegetables, Flowers and Live Plants (FEPEX) and the Spanish Association of Conservation Agriculture Living Soils (AEAC).SV).

The objective of ALAS is to promote socially, economically and environmentally sustainable agricultural production and the improvement of its competitiveness and efficiency. It aims to reach citizens, consumers, etc., the reality of the countryside, agricultural and livestock production, and food, and serve as a forum for meeting and cooperation between the public and private sectors for the promotion of agricultural practices, such as the sustainable use of phytosanitary products, and sustainable agricultural technologies.

Management Committee Member in ASAJA since 2004

Member Provincial Council in ASAJA since 2001
